

FREDA DARKO
PLT 187-189
CLINTON STREET
SHIASHIE-ACCRA.

THE PRESIDENT OF GHANA
FLAGSTAFF HOUSE
ACCRA.
30-09-2020

Dear Sir,

**APPEAL FOR PROTECTION FOR MY LIFE AND
PROPERTIES**

I write to appeal to your high office for protection against the trampling of my fundamental Human Rights by persons close to you.

I bought a land at Clinton Street, Shiashie (Plot 187, 188,189, also known as 10,12,13) about 21 years ago but Nii Opremire whom I had paid a huge atonement to, after I had bought the land from Mr. Joseph Tetteh Apan then clandestinely gave a part of the land to a certain man, Nene Kwarshie who in turn gave it to his wife Comfort Korkor Kwashie.

Mr. President, I have paid for the land to four different families; from Mr. Joseph Tetteh Apan of Apankye We,

to Nii Opremire of La, then to Lands Commission and to Towoboase family.

Nene Kwarshie and his wife however took my husband to court and managed to secure a Judgement in an attempt to, not take only that part of the land but my entire land.

Initially, the whole land was one but when Nii Opremire came that he had won a Judgement and court had instructed us to pay an atonement of Tenancy to him, he deliberately divided my land into three different parts just to get more atonement, even though it was not pleasant, I performed the atonement.

The used your Law firm, Akufo Addo, Prempeh and Co., and their lawyer is Mr. Godfred Dame.

How can a Deputy Attorney General and Minister for Justice be a Counsel to an individual? How will the Judge be bold to rule against them and find them guilty if it gets to that point? Is there not a Conflict of Interest Sir?

Mr. President, at the Land Court 12, (where the case is being heard) my Witness Statements and other documents are torn in such a manner that it will affect

my case. Surprisingly at the Land title too, when I requested for a certified true copy of the same land, I realized that they had been tampered. What is going on is serious to say the least.

Due to that I have written to the Executive Secretary of the Lands Commission calling for a Forensic Document Examination. I believe this will help unravel the mysteries surrounding the deliberate tampering of my land documents.

And when I also requested for certified true copy of my documents from the court, the court clerks and administration sometimes deny me my own documents I filed, or even frustrate me severally and when they finally want to give them to me, they deliberately give me rubbish.

Mr. Dame managed to get my account details and secured a court order to garnishee my accounts when I was not even part of the case, he again prepared a motion for affidavit and supplementary affidavit which beard someone's name but was signed by an entirely different person. And this surreptitious motion was used to secure a Judgement at the blindside of my husband.

Another worry is that your bodyguard, Prince Mohammed suddenly came onto the land with several land guards and began developing it.

When I attempted to draw his attention that the land belonged to me, he and his landguards nearly lynched me if I had not flee from there. They however assaulted my son who was with me and was taking a video of what was ongoing.

Mr. President, Prince Mohammed told me that he will deal with me to the extent that I will run away from the land.

Again, I reported it to the East Legon police and there too, he boldly and proudly told me that he has taken the land and I should report him anywhere, nothing will happen.

He is using his position as a body guard of the First Gentleman of the State to harass, intimidate and bully a woman who has worked hard and sold her mortgage abroad to come and build in Ghana in order to make a living.

I drew Mohammed's attention to the fact that the President never promised to forcefully take peoples' properties when he wins power but his aid who was

with him at the police station told me blatantly that 'we don't need your vote'.

In conclusion your Excellency, below are my grievances I need you to look into for me:

1. My documents for this case at the court have been torn and damaged at the Lands court 12.
2. My documents covering same land at the Land title, has been tampered at the Land Title Division.
3. Your bodyguard Prince Mohammed has brought land guards onto the land and has started Developing part of it. Now I don't even have a place to keep my materials for my construction. My containers have been scattered and my materials are at the mercy of thieves.
4. Deputy Minister of Justice and Attorney-General is Lawyer for the people who want to take my land from me through dubious means.

Mr. President, it is very painful to lose my hard-earned property and money in this wicked manner. The issues surrounding this land makes me fear for my life and I therefore call on you as president of this country to intervene, protect me and give me my land.

Sincerely,
Freda Darko
